434/07 Matters Arising on Previous Minutes:

a) Min. 259/07(d) – Eldon Drive Watercourse

A copy of a further letter from David Jones, M.P. to the Head of Environmental and Technical Services, CCBC, was received and considered.

It was RESOLVED to write to the Cabinet Members for the Environment and Finance to request that, in light of the Civil Engineers estimate received, this matter is reconsidered.

b) Min. 259/07(l) – Improvements to Parc Gele

Members received and considered details of a proposed Trim Trail for Parc Gele.

It was RESOLVED to write to CCBC to support the proposal.

- Cllr. J.D. Mortimer arrived at this juncture

c) Min. 368/07(c) – Rhyl Flats Offshore Wind Farm

(i) A response to the initial letter sent to the Dept. for Business Enterprise & Regulatory Reform, dated 30 July 2007, was RECEIVED.

- (ii) A copy of the further letter of objection submitted by this Council, due to health concerns, and an acknowledgement of receipt from the Westminster Department was RECEIVED.
- (iii) A copy of the third letter of objection sent by this Council in August, together with responses from Westminster, David Jones M.P. and D. Millar, A.M. was RECEIVED.
- (iv) A brief verbal report by the Clerk following a meeting arranged by Darren Millar, A.M., with representatives from SP Manweb, held at the Town Hall on Friday 14th September, was RECEIVED.

It was NOTED that the representatives from SP Manweb have agreed to report back to Darren Millar on two issues:-

Whether there was any possibility that the underground cabling trench for the proposed Gwynt y Mor wind farm could be shared and, if not, why not. What measures, if any, could be taken to ensure that the new overhead line does not pass within 200 metres of any property or the children's play area in Bodtegwell.

- (v) A copy of a 'facts update' from the Energy Networks Association, dated April 2007, regarding the first interim assessment of possible precautionary measures for Electro Magnetic Fields was RECEIVED.

Members stated their concerns about the number of wind farms being developed across Wales and the impact this will have on the environment, due to the need to connect them all to the distribution network.

Planning Policy Wales Technical Advice Note 8: Planning for Renewable Energy states in paragraph 2.12, with regards to connection to the electricity grid, that "laying high voltage cables underground is usually 6-20 times more expensive than a pole-mounted system and would be likely to be justified for only limited lengths and/or in special circumstances"

- Cllr. G.R.K. Brown retired from the meeting during this discussion.

It was RESOLVED to write to the Welsh Assembly Government to request that this policy be reviewed, due to the increasing number of connections required and the inevitable impact this will have on visible amenity, health and the environment.

- (vi) It was NOTED that Mr Edwards of SP Manweb is currently working with the Biodiversity Officer of CCBC and the Planning Department to discuss the funding of habitat protection schemes and planting of native deciduous trees to mitigate the impact of the lines.
- d) Min. 369/07(j) – Transfer of Neurosurgery Patients to Swansea
- (i) A very brief response from the Health Minister to the letter sent by this Council enquiring about the future provision of Neurosurgery services in North Wales was RECEIVED.
 - (ii) Responses from a number of North Wales A.M.s to the letter copied to them were also RECEIVED and NOTED.

(iii) A Copy of correspondence sent to the Minister by Bay of Colwyn Town Council was RECEIVED.

(iv) Details of a motion passed by C.C.B.C. earlier today were RECEIVED.

- Cllr. K.J. Sudlow arrived at this juncture.

It was RESOLVED to support the motion agreed by CCBC today, with one amendment, as detailed below:-

"That this Council ask that the Welsh Assembly Government urgently reconsider its position on the moving of neurosurgery services to Swansea or Cardiff. Whilst it is recognised that emergency treatment will be available at the nearest specialist hospital, this ignores the fact that any follow-up treatment currently proposed in South Wales does not take into account the scale or time it will take to travel to the South of Wales.

We would encourage the Welsh Assembly Government to recognise this fact and ask that should an all Wales based service be considered, that no patient, wherever in Wales they live, will be disadvantaged by travel and that a more suitable location within Wales for this service be sought, if required. This Council requests that consideration be given to providing a centre in North Wales to better meet the requirements of an all Wales service."

It was FURTHER RESOLVED to take this proposal to the next meeting of the North Wales Association of Town Councils.

e) Min. 370/07(e) – Survey of ‘rat runs’ by C.C.B.C.

A verbal response from Paul Evans, CCBC, to confirm that traffic surveys of Lon Dirion, Ffordd Tan yr Allt, Lon Ffawydd and The Broadway would take place during September, in conjunction with other ‘link based’ traffic surveys in Conwy was NOTED.

It was FURTHER NOTED that the surveys are expected to be labour intensive and it will take some time to compile the results and that Highways also hope to be able to take up to date speed measurements, but may need to rely on previously collected data.

It was also NOTED, with disappointment, that other identified problem areas will not be included in the current surveys and will have to wait until further resources are available.

It was RESOLVED to include details of this survey in the next edition of the Council’s newsletter.

A copy of a report submitted by Highways to a recent Environment Scrutiny Committee of CCBC was RECEIVED and considered.

Awel y Mor, as detailed in the presentation given by Alan Smith at the last Ordinary meeting.

A discussion took place regarding the proposals for Awel y Mor, with Members welcoming the planned improvements but stating concerns about the need to sell a tax payer's asset to the private sector to be able to access grant funding for improvements.

It was RESOLVED to write to the Social Care and Housing Department to state these concerns and to request that the land is only leased to a Housing Association, with conditions that the land be returned to public ownership should the property cease to be a residential care home.
